

CAMO

EDGE PRO™

COLLATED HIDDEN DECK FASTENING SYSTEM

FASTENER-FREE SURFACE

QUICK AND EASY TO USE

NO-GAP INSTALLATION

THE CAMO EDGE PRO

Installing a fastener-free deck surface is fast and easy with the CAMO Collated Hidden Deck Fastening System.

Designed for no-gap installation of treated wood decking, the CAMO Edge Pro can also be used with a wide variety of wood, composite, and PVC deck boards and secondary spacers.

The CAMO Edge Pro and CAMO Hidden Fasteners attach boards directly to the joist using a secure side-angle entry that reduces the splitting, cracking and fastener pops inherent with face-fastened deck boards.

No matter which deck material you choose, the Edge Pro provides a beautiful deck surface that will be enjoyed for years to come.

CAMO®

COLLATED HIDDEN DECK FASTENING SYSTEM

CAMO EDGE PRO™

The patent-pending CAMO Edge Pro positions CAMO Hidden Fasteners for side-angle entry to the deckboard with no installed gap. CAMO Marksman tools are designed for use with CAMO Hidden Fasteners only.

- Designed for use with treated and other softwood lumber, but can be used on most types of decking
- Heavy-duty, contractor-grade tool
- No installed gap between boards
- For additional gap options, can be used with secondary spacers

Powered by:

COLLATED HIDDEN FASTENERS

PROPRIETARY DESIGN – PATENT PENDING

- A reverse rake tip removes deck material as it bores, allowing the screw to penetrate the board without splitting
- A star drive offers more points of contact for better performance and reduces bit slippage and wear
- An aggressive lower thread pattern provides superior holding power while the reverse upper thread pulls the board tight to the joist and provides a clean, finished entry
- A unique trimhead design provides a less visible point of entry

CHOICES FOR CORROSION RESISTANCE/ACQ COMPATIBILITY

- ProTech Coated Carbon Steel – Three protective layers that pass a 1500 hour salt spray test in accordance with ASTM B117 and guards against corrosion when used with chemically treated wood
- 316 Stainless Steel – ultimate in corrosion resistance; recommended for coastal environments

LENGTH

- 2-3/8" – For use with 1" to 1-1/2" deckboards

INDEPENDENTLY TESTED

- Exceed ICC-ES Acceptance Criteria for Deck Board Span Ratings and Guardrail Systems (Guards and Handrails) (AC174) (Section 4.1.4) in all wood, composite and PVC boards tested.

PACKAGE COVERAGE:

Based on 16" OC

1000 COUNT = 285 SQ. FT.

50 CAMO Collated Hidden Fasteners per strip

CAMO EDGE PRO : #345050

PROTECH COATED - 2-3/8" CAMO COLLATED HIDDEN FASTENERS : #345343

316 STAINLESS STEEL - 2-3/8" CAMO COLLATED HIDDEN FASTENERS : #345443S
