

2019 OUTDOOR PLANNING GUIDE: BUYERS' GUIDE

NATIONAL NAIL's CAMO brand offers a one-stop resource for tools, guides and deck screws. The CAMO Edge Fastening system creates a fastener-free surface, while EdgeClip and EdgeXClip work with grooved boards. To ease deck board installation speed and flexibility, the CAMO Drive tool (shown) helps install any type of decking using EdgeClips, Edge screws or face screws from a standing position. Visit camofasteners.com or call (800) 968-6245 for more information.
