### **CAMO Clips Approved For Deckorators' Grooved Deck Boards**

Deckorators has approved CAMO's EdgeClip and EdgeXClip fasteners for use with its grooved deck boards. CAMO Edge Screws are also on the Deckorators' compatible fastener list, having previously been approved for use with their square profile deck boards. These fastener systems are manufactured by National Nail and are created to achieve a fastener-free surface. The EdgeClip is designed for 90-degree patterns and the EdgeXClip is designed for any angled decking pattern. A 'Never-Miss Guide' is included in every pail of clips to aid in installation. The CAMO DRIVE stand-up tool with the clip guide can also be used for installation.
