

CAMO MARKSMAN PRO

The CAMO Edge Fastening System from National Nail will exhibit at DeckExpo in Baltimore, MD, Oct 10-11, 2018 in booth 2218. The CAMO Marksman Pro is a system of guides, proprietary screws and drill bits that create a fastener-free surface for virtually any type of decking. Simply load the proprietary deck screws into the hand-held guides that position

them to be driven into the edge of the deck boards and provide automatic gapping. Special driver bits are included with the screws to ensure depth of drive. CAMO offers several guides including the Marksman Pro, Marksman Pro-X1, MarksmanPro-NB, and the no-gap guide Marksman Edge, which range in cost from \$20 to \$50. They work with any decking material—composite, PVC, and most soft and hard wood species with variations to accommodate nominal 6-inch boards as well as narrow boards. CAMO also features a variety of spacing choices, including a no-gap option for treated wood decks that can also be used with secondary spacers when wider gaps are desired. Visit booth 2218 or www.camofasteners.com.
