

## CAMO DRIVE – AVAILABLE MARCH 1, 2019

February 1, 2019

Get off your knees and install decking up to 5X faster with the CAMO DRIVE – the fastest, easiest, most versatile and affordable way to attach any deck surface.

Introducing the all new CAMO® DRIVE™ – the fastest, easiest, most versatile, and affordable way to attach any deck surface. This stand up tool is crazy fast. You can install decking up to 5X faster with the CAMO Drive.

And it is so easy to use and versatile.

First, you attach your favorite drill to the CAMO Drive.

Second, simply select one of three most popular fastening methods, the new CAMO EdgeClips™, CAMO Edge screws or the new CAMO Face screws and attach the corresponding guide and Drive!

### THREE FASTENING METHODS

EDGE GUIDE

CLIP GUIDE

FACE GUIDE

If you are installing grooved wood, capstock or PVC decking, CAMO has engineered a family of deck board clips that are so easy to use that they cut your installation time by more than half. The patented design of the new CAMO EdgeClip eliminates the need to pre-install the clip like traditional top down or angled clips require today. Simply slide the EdgeClip onto the joist in the groove, attach the Clip Guide onto the CAMO DRIVE, and fasten in one easy motion all while standing up.

CAMO DRIVE is affordable. It's about half the cost of other stand up deck fastening tools on the market.
