## Refinished/ Restored Deck

1st

### All Decked Out

Cincinnati, OH.

[www.alldeckedout.com](http://www.alldeckedout.com)

Designer: Bob Kiefer

The builder refinished the old deck and built on additional square footage with Prowood pressure treated framing then installed TimberTech Legacy Sapele composite decking with Key Link American series aluminum railing in bronze on the deck. They also utilized the DekDrain system to create a dry space below and CAMO hidden fasteners.

This project took an old deck that was drab into this century and increased the value of an already gorgeous home overlooking the Ohio River. The new deck paired perfectly with a new patio and pool addition, making a spectacular outdoor space.
