

AWARD
WINNERS

Top Tools of 2019

From new battery technologies to never-before-seen cordless tool innovations, this year's seventh annual Pro Tool Innovation Awards proved to be the biggest ever, with more entries than ever before and advances not thought possible a short while ago.

Some companies are doing more and more

with 18V tools. Others are discovering ways to advance technology through hybrid designs and higher voltage platforms. There are even tools that operate as both corded or cordless.

Most of the award-winning tools were designed to save users time, money and energy.

They included:

PNEUMATIC TOOLS & NAILERS

Cap Nailer/Stapler: National Nail Stinger CN100B cap nailer

The Best Pneumatic Cap Nailer, National Nail's Stinger CN100B, was redesigned for improved performance, higher magazine capacity, and added durability.
