CAMO Drive™ Stand Up Deck Fastening System Earns First Place in New Products Showcase at 84th LMC Annual Meeting

CAMO Drive™ Speeds Decking Installations by Up to 5X

Grand Rapids, MI, April 9, 2019 -- National Nail's CAMO® Drive™ earned first place in the New Products Showcase at LMC's 84th Annual Meeting in San Diego, CA. The Lumbermens Merchandising Corporation (LMC), a national buying group of dealers, praised the CAMO Drive for its affordability, versatility and efficiency.

The New Products Showcase at LMC's 84th Annual Meeting featured close to 100 products from more than 60 suppliers.

"One of the cool things about this product is it was developed with direct input from contractors," said Eugene McCann, Product Manager, National Nail. "It has multiple benefits such as being fast, easy to use, versatile, and affordable." CAMO Drive's MSRP is \$169.

Engineered with insights from decking pros, the CAMO Drive tool was designed to overcome key challenges faced by today's professional deck builder. It gets contractors off their knees and in a comfortable standing position, installs up to 5X faster than current methods. It attaches to the contractor's own drill with three end attachments for installing traditional face fasteners; CAMO's propriety Edge Screws or their new, revolutionary CAMO EdgeClip™ or EdgeXClip™-- both the Edge and Clips systems deliver a smooth, fastener-free surface.
