

Programmer - Senior

Are you looking for a position where your decisions and actions have a direct impact on those around you and the company you work for? Do you want to be part of a culture that's innovative, fun, and growing? Are you ready to be challenged to be a "better you" a year from now. What if that opportunity is now?

We . . .

Are an employee-owned company that has been a proud part of the American building materials industry for over 50 years. With a storied history of innovation, some say it's in our DNA. We agree. From product to brand, to sourcing to customer-centric solutions, we are constantly asking the "what, why and how" questions that others do not.

Our customers include the finest household names in the LBM, Roofing, Home Center, Distribution and STAFDA segments of the building industry. Whether they are National in scope with multiple locations or a single location staple of a local community, we consider it a privilege that our three proprietary brands, CAMO, Pro-Fit and STINGER, can support them nationally and globally.

Our culture is characterized as . . .

- Servant focused and growth-minded.
- High standard embraced by a dedicated team of employee-owners who enjoy the fruits of hard work while having a "bit of fun" along the way.
- Driving a pattern of growth resulting from the intentional investments in the development of our people.
- Founded on Four Cornerstones, 8 character traits and a simple operating philosophy of *Serve • Better • Value • Fun*. These work for us.

Your Assignment . . .

You will have a voice in defining and developing National Nail's next generation applications in the areas of Web, BI, heavy client and middle ware. These applications will be used by National Nail, its customers and vendors utilizing PC's and mobile devices.

Specifically, you will utilize your experience in . . .

- Back-End Technology (PHP, Laravel, Codeignitor, .NET, C#)
- CMS (Statamic, Wordpress etc...)
- HTML5, Bootstrap, CSS, NodeJS
- Visual Studio Code/Sublime Text
- MSSQL/MySQL and/or relational databases
- Framework Technology, Agile Software Development Methodology
- Google Gmail, Applications and Drive
- JavaScript, Angular.js, ASP, API use experience
- Database management tools (Navicat, SQL Management Studio, MySQL Workbench, etc...)
- Qlik or dashboard application
- Git or version control software
- Rollbase

So if you are you an experienced Programmer that . . .

- Aligns with our servant-based culture and has a mindset fixed on growth.
- Computer Science Bachelors/Associates Degree
- 7+ years related experience
